

January

HAPPY NEW YEAR

Welcome back to school! We hope everyone had a wonderful holiday and ready to start a new year. December went by quickly, The children were busy making crafts and Christmas decorations. They looked absolutely adorable in their angel costumes.

Now that it is January we will be talking about snow and winter as we create art projects related to the season. We continually to teach colors, shapes and practice counting during the day. This month we are working on the colors blue and white. Manipulatives such as puzzles, blocks, crayons and paint brushes are favorites of the toddlers and help develop their fine motor skills. Gym time is used to help develop their gross motor skills running, climbing, throwing different sized balls. At the same time we continue to work on social skills by encouraging them to use their words to express themselves.
