

Toddler Newsletter

September 2026

Welcome

The month of September is all about acclimating your child to a school environment. While many kiddos will shed some tears saying goodbye, please know this is only temporary. A quick goodbye is best for you AND your child.

About Our Class

- We will practice classmates names through song each morning.
- We will work on simple crafts using large paintbrushes, finger paints and crayons.
- We will focus this year on Nature. We will take nature walks often and make art with objects we find outside. We will talk about the colors we see, animals we hear, and textures of the natural world around us.
- We will go outside or to the gym each day to get out some energy. Please make sure your child has appropriate footwear (sneakers are our preference). Also, sunblock should be applied before school.

Supplies Needed

- Wipes (for crafts)
- Gallon Ziplock bags
